

# Jetsada Wichainet

Motivated and energetic recent IT graduate from Rajamangala University of Technology Thanyaburi with internship experience in an IT Support role. Possess a solid educational foundation in Computer Science with strong knowledge of various Programming Languages such as C, C++, Python, HTML, CSS and JavaScript. Familiar with dynamics working environment. Have a desire to advance to Front-End or another related position. So I studied seriously and consistently. If there is an opportunity to work together, I will try to adapt to work and colleagues as much as possible. I am confident that I will definitely be a good developer for the company.
